Schedule 3

DRYSTACK RULES

1. The customer or his representatives and associates must not enter the Dry Storage facility or the Dry Storage hard stand area at any time.
2. The customer or his representatives and associates must not attempt to board the vessel while it is stored in the dry berth.
3. The customer or his representatives and associates must not attempt to recover the vessel from the dry berth.
4. The customer or his representatives and associates must not attempt to launch to the water or recover the vessel from the water.
5. The customer or his representatives and associates must not attempt to undertake any of the services offered by Queenscliff Harbour.
6. The customer or his representatives and associates must not carry out any repairs, sandblasting, painting, hull cleaning, fitting out or refitting of the vessel in the Dry Storage facility or Dry storage hard stand area or any other part of Queenscliff Harbour without the prior approval of the Harbour Manager.
7. Vessels must be maintained in a clean, sound, seaworthy and watertight condition.
8. Vessels must not display "for sale" or any signage or advertising materials.
9. The customer or his representative must take all necessary precautions against the outbreak of fire in or upon the vessel while it is stored in any area of the Dry Storage facility or Dry Storage hard stand area.
10. Vessels must be kept free of animals, pets, pests, insects, fishing bait, and vermin.
11. Vessels must be kept free of infectious diseases and infections.
12. Vessels must not be fueled at any place within Queenscliff Harbour other than at the Marina Fueling facility provided for that purpose.
13. The customer or his representative must not do anything within the Queenscliff Harbour boundaries which is immoral, unlawful, noxious, offensive, hazardous, or likely to cause nuisance or injury to Queenscliff Harbour or its employees or servants or any other person.
14. The customer or his representative must not conduct any auction or fire, bankruptcy or liquidation sale on or from the vessel while it is within the boundaries of Queenscliff Harbour.
15. The customer or his representatives and associates must follow the directions of the Harbour Manager or his deputy at all times and ensure all of the customers or his representatives and associates do the same.

Schedule 4

Harbour Plan

Schedule 5

DRystack PROCEDURES

- Requests to launch vessels must be made to the Harbour Office a minimum of 1 hour prior to launch.
- Requests to retrieve vessels must be made to the Harbour Office a minimum of 1 hour prior to retrieval.
- If vessels are required to be launched prior to the Drystack opening time the vessel will be launched the night before and will be left moored in the Drystack berthing area at the vessel owner's risk.
- If the vessel returns to the harbour after the Drystack closing time then the vessel may be left in the Drystack berthing area at the owner's risk until retrieved from the water the following day.
- Bungs must not be removed from vessels under any circumstances while the vessels are out of the water.
- Battery master switches must be in OFF position while the vessels are out of the water.
